Abstract trans. of Meteoritika (USSR) 1961, v. 20,

DESCRIPTORS: *Meteorites, Optics, Atmosphere,

A number of peculiarities of the optical phenomena
attest to the cosmic nature of the Tunguska meteorite.
First, the phenomenon propagated very rapidly over
an extremely wide area. The fall of the meteorite
occurred at midnight, World (Universal) Time, and
at 2200 hours the luminance was observed in England!
